

The experience of the Swedish Public Health Agency of dialogue with the society L'expérience de l'Institut suédois de santé publique en matière de dialogue avec la société

Johan Carlson

Agence nationale de santé publique de Suède Public Health Agency of Sweden

The Public Health Agency

In 2014, the Swedish National Institute of Public Health, the Swedish Institute for Communicable Disease Control and parts of the National Board of Health and Welfare merged into one single agency.

The Agency is a national expert authority with the overall responsibility for public health issues - the first with an all encompassing mandate in the area.

The agency has 500 empolyees

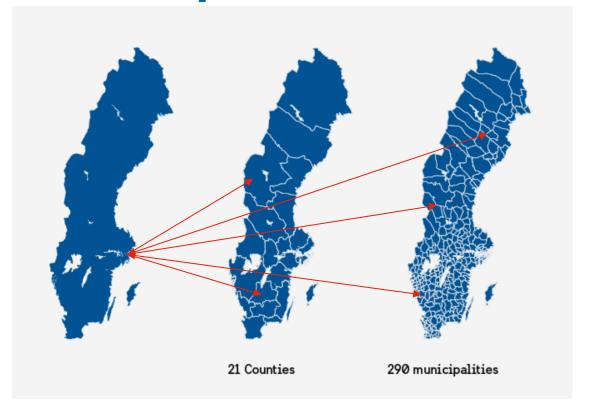

Our vision statement:

'a public health that strengthens the positive development of society '

Sweden – a very decentralised country...

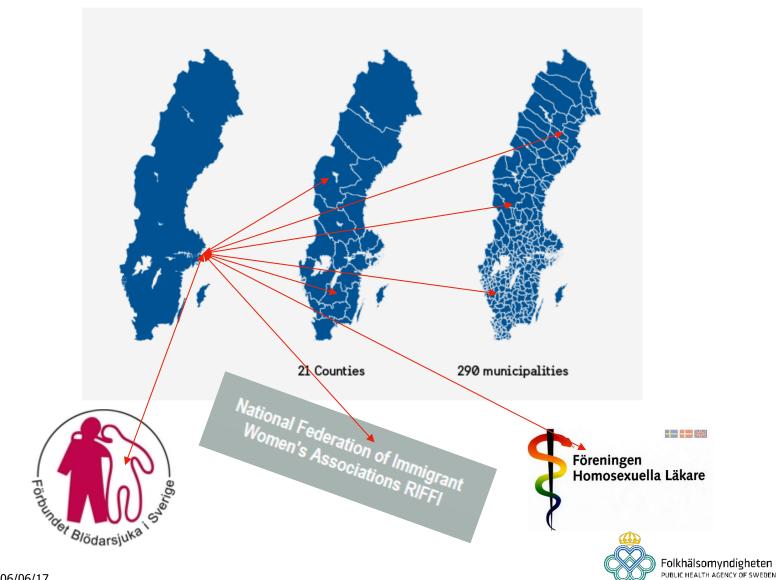

... with a strong civil societyand rather independent governmental agencies

Folkhälsomyndigheten

Communication and dialogue with professionals and the public - via web, reports, guidelines, media and meetings

National co-ordination

What does co-ordination of the civil society (NGO:s) mean in reality?

- Understand the civil society
- Find appropriate ways to communicate with the civil society
- Take advantage of the unique position of the civil society
- Strengthen the capacity of the civil society
- Integrate the civil society with the public sector

Some areas of national co-ordination

Co-ordinating based on national strategies or legislation:

- Communicable disease control
- -HIV/STI
- Antimicrobial resistance
- Vaccination programmes
- Preparedness for health threats
- -Sexual and reproductive health and rights
- -Mental health
- Suicide prevention
- Alcohol, narcotics, doping, tobacco
- Gambling prevention

Some areas of national co-ordination

- Co-ordinating based on national strategies or legislation:
 - Communicable disease control
 - -HIV/STI
 - Antimicrobial resistance
 - Vaccination programmes
 - Preparedness for health threats
 - Sexual and reproductive health and rights
 - -Mental health
 - Suicide prevention
 - Alcohol, narcotic drugs, doping, tobacco
 - Gambling prevention

Some controversial areas

- HIV-legislation (i.e. communicable disease legislation)
- Hiv and blood donors
- Vaccination policy
- Harm reduction in treatment of drug addicts
- Alcohol policy
- Lyme's disease (borreliosis)
- Electromagnetic fields

Example

Hiv/STI

Numerous NGO:s

Somaliska Hälsoteamet

National Federation of Immigrant
Women's Associations RIFFI

Support of the civil society

Developement of methodology

Capacity building

Empowerment

Financial support

PUBLIC HEALTH AGENCY OF SWEDEN

Implementation

- Unique knowledge of target groups
- NGO:s can act as implementors

Smittsamhet vid behandlad och obehandlad hivinfektion

- en sammanfattning och praktiska råd

Some controversial areas

- HIV-legislation (i.e. communicable disease legislation)
- Hiv and blood donors
- Vaccination policy
- Harm reduction in treatment of drug addicts
- Alcohol policy
- Lyme's disease (borreliosis)
- Electromagnetic fields

Challenges

- Does a NGO represent the sector?
- Is the civil society the best partner for an agency?
- Conflicting views/roles
- Sometimes too much focus on financing
- Time consuming

Conclusions

Thank you!
