Who are we?

- ✿ **Created in 1985**
- ✿ **Non profit organization – under French association law of 1901**
- ✿ **Totally independent from any religious and/or political groups and parties**
- ✿ **A citizen organization :**
 - ✿ 4 000 unemployed persons coached by 2 500 voluntary citizens
 - ✿ 3 000 financial sponsors enabled us to create 60 jobs in partner organizations such as other non profit organization
- ✿ **Proven skills, process, networking and actions to move up the society and develop solidarity with the unemployed.**

Our missions

1 : Going and coming with the unemployed persons

- ✎ One unemployed person is coached for **as much time as needed** by **two voluntary citizens**.
- ✎ Coaching is available to **any person jobless** regardless of age, profile, activity, position and duration in unemployment and who is able to work.
- ✎ Our coaching and actions are not compulsory and only answer the demand and will of someone unemployed.
- ✎ **Our actions are to:**
 - ✎ listen, stimulate, develop new personal relation and a methodological approach
 - ✎ break the solitude trap and spin relations and networking
- ✎ Our mission and actions are done in addition and in parallel to the State Public Employment Services (Pôle Emploi)

Our missions

2 : Finance & create jobs in the associative non profit sector

In 2018 : 3000 donors or sponsors - 60 “solidarity jobs” created and financed for our jobless persons in non profit non governmental agencies and social entrepreneurs.

Why financing those “solidarity jobs”?

- ✎ Stepping stone to a long term contract or job,
- ✎ To develop initiatives, walk the talk and just help,
- ✎ To support development of associative and social entrepreneurship

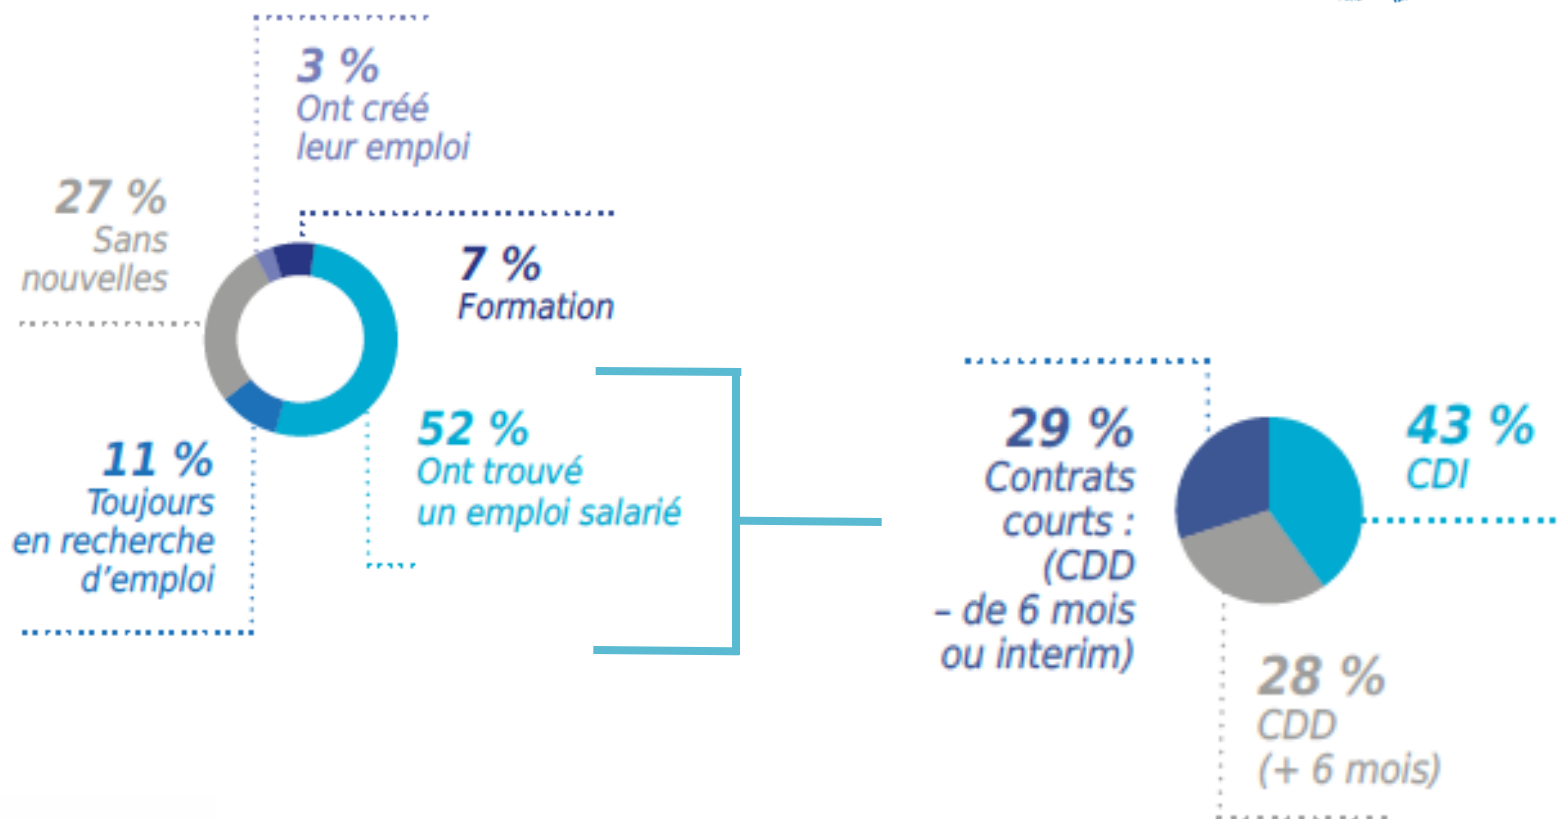

3 : Media relations & participating public speech

Participate : unemployment and social issues must be kept high in the agenda of our political parties, MPs, Trade-unions, State and public organizations.

Give the floor and the microphone to the jobless and relay their speech to make sure their voices are heard in the medias.
